

Translating Latin past continuous/progressive verbs

We know now that the ending of a Latin verb not only tells us **who** is doing the verb, but also **when** the verb happened.

present tense (action is happening now)		past continuous (progressive) tense (action was happening over a period of time in the past)
-o	I	-bam
-s	you	-bas
-t	he/she/it	-bat
-mus	we	-bamus
-tis	y'all	-batis
-nt	they	-bant

Sort the words below into the correct tense groups. The first one has been done to show you how.

~~ambulabam~~ ambulans scribebas scribitis
audimus audiebat inveniebamus faciebamus
invenis dormis videbatis video numerabant
dormiunt dormiebatis facimus numerat
audiebam scribo

present tense	past continuous/progressive tense
	ambulabam

Translate the following Latin verbs. Watch out, there's a mixture of present and past continuous, so take a look at the ending to see both when the verb is happening and who is doing it.

Then look at the beginning of the verb to see what's happening (use your word lists if you need help with the verb meaning). The first one has been done to show you how.

1. ambulat *I walk*
2. scribebat
3. scribis
4. audiebant
5. audimus
6. videtis
7. numeratis
8. numeras
9. dormiebat
10. inveniebam
11. inveniunt
12. videbatis
13. faciebamus
14. facio
15. ambulas
16. dormis
17. videbas
18. ambulabant

words to help
