

## Antonym prefixes in Latin adjectives

### in- and im-

...can be added to the beginning of a Latin adjective to make its opposite (antonym). For each of the Latin adjectives below, find its opposite from the box and then translate. You can use the word 'not' in your translation, but you can also try to find an alternative synonym. The first one has been done to show you how.

incognitus immixtus impatiens incautus  
inquietus infinitus impossibilis incertus  
ingratus imparatus immaturus invalidus
